EDUCATION

University of Michigan, Ann Arbor — **Ann Arbor, MI**
Master of Science in Information | Product Management Pathway — **Expected June 2028**

National Chengchi University — **Taipei, Taiwan**
Bachelor of Management Information Systems — **June 2024**

- GPA: 3.98/4.3

WORK EXPERIENCE

May4S — **Taipei, Taiwan**
CRM Technical Consultant Intern — **Jan 2024 - Sep 2024**

- Implemented Salesforce automation, Lightning Web Components, and chatbot workflows within an 8-member cross-functional team to address client requirements and support internal issue reporting.
- Integrated third-party systems through REST APIs and resolved cross-system data discrepancies through code fixes and validation logic.
- Conducted functional and user acceptance testing for 10+ e-commerce features over approximately 3 months, tracking test cases and issues in Google Sheets, Jira, and Confluence.

PROJECT EXPERIENCE

Business+Tech Innovation Jam – Essential Tremor Project — **Ann Arbor, MI**
Product Manager — **Oct 2026 - Present**

- Defined the problem statement and analyzed 5 competing products to guide product discovery for an essential tremor project.
- Participated in interviews and synthesized findings within a 15-interview research effort to clarify user needs and explore potential solutions.

CareerPair – Course and Career Planning — **Ann Arbor, MI**
Course Project — **Sep 2026 - Present**

- Conducted and analyzed 13 interviews across two rounds with students from four MSI pathways, and met with UMSI's Office of Academic and Student Affairs (OASA) to explore course-selection and career-planning needs.
- Developed a market overview, SWOT analysis of the MSI degree, and desirability and feasibility assessments for a proposed course and career recommendation tool, contributing to an investor pitch.

Midwest Healthcare Case Competition — **Ann Arbor, MI**
Commercial Strategy, Acquisition Case — **Oct 2026**

- Evaluated physician targeting, a proposed vascular-center pilot, and marketing resource allocation for a potential pharmaceutical acquisition.
- Contributed commercial analysis to a one-week acquisition assessment, integrating findings with teammates' market-sizing, launch performance diagnosis, and financial analyses to support a no-go recommendation.

Swap — **Taipei, Taiwan**
Developer & Project Manager — **Aug 2022 - Nov 2023**

- Built a Flutter and MongoDB app prototype for secondhand exchanges, developing interfaces, application logic, and API integrations while mapping user journeys.
- Led a four-member team to deliver the prototype, which earned first runner-up recognition in the ESG category at the **2023 International ICT Innovative Services Awards.**
